

Healthy smiles for tots

September 12, 2010

The New Zealand Dental Association is pleased to join the FDI World Dental Federation and national dental associations around the world to celebrate this day. World Oral Health Day is the perfect opportunity to raise student awareness and take part in activities to promote oral health.

Early Childhood Education Centres can participate in this by organising a wide range of events and activities in centres to raise the awareness about oral health. These events and activities need to take place during the week of September 6 – 12, 2010.

Apply for funding

Your centre may apply for and qualify for funding for your oral health event which must take place during the week of September 6-12, 2010.

A maximum of \$300 will be granted to individual centres. Applications close on Monday August 16.

Funding is limited, hence not all applications will be funded. Applications will be assessed on the following criteria by the NZDA project team:

- 🍏 Whole centre approach - involvement from kids, staff and parents
- 🍏 Innovative projects that lead to awareness about importance of oral health

Preference will be given to centres with high Maori and Pacific population. You will be advised of the funding decision via email on August 23, 2010.

Full details and applications for funding are available at:
